Lifestyle Dental and Implant Clinic
284 Garstang Road,
Suite E,
Preston,
PR2 9RX

Dear Dr Majid,

I would be grateful if you could arrange to see the following patient for implant assessment and possible treatment. The patient has fractured his UR1 RCTd tooth at gingival level and would like an implant retained crown to replace this tooth. I plan to extract the root and place an immediate denture to allow this area to heal as chronic PA infection appears to be present radiographically, but the patient would like an implant retained crown in the long term if possible.

The patient has fair OH and his most recent BPE was upper 2/0/2, lower 0/2/0.

Patient Details

Name: Mr Simon Dale
Address: 9 Chapel Lane Burscough Ormskirk
L407RA

Phone – Home/Mobile: 01704897872/ 07990284282

D.O.B: 07/10/61

Medical History: No relevant MH or medications. No allergies

Yours sincerely,

Jonathan Prescott
